10	Patrick Matlock (University of Waterloo)	UW Faculties of Engineering/Arts Security dashboard/scanners

Event Details

Poster Reception

You're invited to join us in Marshall McLuhan Hall on Wednesday, June 19th, 5:00-5:45 pm for a fun treat and to explore the poster gallery where presenters will be on-site to discuss their work.

This year's poster reception is hosted by [Macquarie](#).

How to Present Your Poster

During the Poster Session Reception, all presenters are asked to stand by their posters and to talk to interested attendees. Presenters can have a scripted 5-minute presentation, or answer questions as required – the format is up to you. There will be ~15 posters on display, and no other events conflict with this session. Further tips on poster presentations can be found here: <https://guides.nyu.edu/posters>.

Poster Size and Format

Your poster should fit on a 4'x6' Velcro display board. It will be attached to a rolling bulletin board (see below) using a Velcro adhesive, or you can bring your own poster stand. The conference will provide you with Velcro strips for your poster.
